

SIGNATURE SERIES COMPONENT TWEETER

FUSION®

CODE	PEAK POWER
SG-TW10	200 WATTS

KEY FEATURES

**3 YEAR
WARRANTY**

ADD ANOTHER DIMENSION TO YOUR MUSIC

Gone are the days where the on-board audio is compromised by engine noise! Experience crisp, clear high frequency audio like never before with the Signature Series tweeter.

The Signature Series tweeter is designed to add quality high frequencies to your music, delivering another dimension to your on-board entertainment.

COMPACT PERFORMANCE

The compact Signature Series component tweeter delivers unparalleled high frequency audio, reproducing crystal clear high notes for a truly immersive music experience.

The Signature Series tweeter combines a 1" voice coil with a neodymium pot magnet system, hard dome tweeter and an impressive 200 watts peak power that work in unison to produce quality high frequencies in your music.

MODERN AESTHETICS

The tweeter's modern aesthetics will fit in seamlessly with your audio entertainment system and complement your Signature Series speaker range on board.

THE PERFECT COMPLEMENT

Designed with the acoustics of the Signature Series speakers in mind, this component tweeter will enhance any audio entertainment system, but is optimized for the best audio reproduction when integrated with the Signature Series range.

MULTIPLE INSTALLATION OPTIONS

The Signature Series tweeter is designed to provide convenience in installation. With both flush and surface mounting options, you can choose to install the tweeter where it is most suited, without needing to worry about cutouts if sufficient wall depth is not available.

IP65 WEATHERPROOF FRONT FACE

Rated IP65 for water and dust ingress protection, the Signature Series tweeter is designed to be installed where it is most convenient on board, without the worry of water or dust damage.

This international IP65 rating makes it perfect for either indoor or outdoor installation in the marine environment

TRUE-MARINE™ PHILOSOPHY

Fusion's True-Marine design philosophy stems from our experience confronting the harsh marine environment. By designing and engineering from the ground up specifically for real world boating applications, our customers are assured that the equipment they fit into their vessel will deliver quality entertainment season after season.
